

"Providing Quality Products and Computer Service Solutions to the Northern Ohio Area Since 1986"

Do you want a web-site but don't have a good budget for it?

With our introductory web-site starter promotion, now you can!

As you may know, in addition to computer sales and service, we have been offering web-site design services for several years now. If you've visited some of our sites, they are simple, budget-friendly, top-of-the-line web-based representations of their respective businesses. We're very proud of them as are the business owners. In fact, the best news is that most have already paid for themselves in new business for their owners! **Some in their first month alone!**

With our introductory Web-Site "Sale" - Don't wait or put it off any longer! Here's our simple and affordable 3 step program to your new custom web-site which **includes** digital photos of your business and/or your products as needed!

- 1) We'll register and reserve your domain name (www.yourcompany.com) for 1 full year. (Renewals every year \$35)
- 2) We'll setup your host account (You don't need any new equipment! This is where the site will be hosted for all to see) for 1 year which also includes 5 e-mail addresses. (Your e-mail address can be yourname@yourcompany.com OR sales@yourcompany.com OR accounting@yourcompany.com ,etc,etc.) Once these are setup, we'll either forward mail sent to them automatically to your current e-mail address or we'll setup these e-mail addresses on your computer as needed. (Hosting after the first year is only \$20/month-billed annually.)
- 3) We'll "Custom Design" your site! **This is where the fun starts & you actually get on the web!** We'll include up to 5 custom pages (standard size) of text, pictures & graphics (supplied by you)-all designed around your custom web image. This also includes graphics & picture scanning, picture enhancement & touch-ups (if needed) and just about anything else needed to make your site look fantastic!!! Want us to take digital pictures of your business or products? No problem! We'll throw in up to 20 hi-res images if you say "Yes" by months end.

In other words, you'll get EVERYTHING you need to get on the web for only \$995.

Again, this price includes everything you'll need to get started, depending only on the amount of information and photos you want on-line about your business. If you have additional information that needs more pages, they will be billed at a discounted rate per added page. Again-You don't need any new computers, phone lines or anything else except more staff to handle the extra business! So if you're looking for a hi-quality web-site to represent your business at an affordable price, now's the time to call us! We'll create a site that fits your needs and your budget-usually in 2 weeks! Make it a great day!

A handwritten signature in black ink that reads "Rob A Butler".

Get a New Photographic Web-Site!

A full 5 page web-site with many photos, links to other sites, e-mail, map & more for only \$995. Visit SantosItalianVillage.com to see what you're missing!

It's no secret that it's a new business world out there today than it was 5 years ago! The competitive economy combined with the internet has changed forever the way businesses communicate, new clients are found and sales are generated.

No end in Sight!

It is also no great surprise that annual internet sales for retailers and heavy internet oriented businesses are growing at around 25% each year. In other words, to grow in today's world, you need to be on the internet.

If you already have an older web-site with mostly text and a few graphics or low-res photos, it's time for an update to a new photographic site! If you don't have a web-site, NOW is the time to get one!

Our sites are designed for hi-speed internet access. If you don't have hi-speed, we can also help you with that and to even become a wireless hot-spot! (Another profit center for you!) With 70% of area internet users now on fast connections, hi-speed is a must for business today!

Only \$995 for everything you see here and lots more! (Includes a 5 page photo web-site, around 25 digital photos, links to other web-sites, a "live" map to find you and minor updates as needed for 1 year!) These screen shots don't even come close to the quality of the photos or the site! Visit SantosItalianVillage.com to see for yourself!
